

Resinol

First aid for cuts
burns and bruises

Every household should have a jar of Resinol Ointment on hand for emergencies like these. A touch of Resinol usually relieves the smarting and burning immediately. Its gentle, harmless ingredients, and its success in healing eczema and similar troubles, have also made it a standard treatment prescribed for years by physicians for skin and scalp troubles. At all druggists.

Notice.

Discharged soldiers and sailors are asked to register date of discharge at the home service section of the Red Cross, Jackson block, room 4, Monday, Tuesday and Saturday evenings and Sunday afternoons, also by appointment. Mrs. F. E. Robinson, executive secretary.

WORSE THAN DEADLY POISON GAS

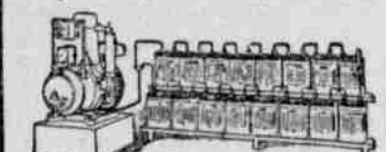

Kidney disease is no respecter of persons. It attacks young and old alike. In most cases the victim is warned of the approaching danger. Nature lights back. Headache, indigestion, insomnia, lame back, lumbago, sciatica, rheumatism, pain in the loins and lower abdomen, difficulty in urinating, all are indications of trouble brewing in your kidneys.

When such symptoms appear you will almost certainly find quick relief in GOLD MEDAL Haaren Oil Capsules.

This famous oil remedy has stood the test for two hundred years in helping mankind to fight off disease. It is imported direct from the home laboratories in Holland, where it has helped to develop the Dutch into one of the sturdiest and healthiest races in the world, and it may be had at almost every drug store. Your money promptly refunded if it does not relieve you. Be sure to get the genuine GOLD MEDAL Brand, in sealed packages, three sizes.

The Duxbury Corner school gives in the town hall Tuesday evening, the play, "The Joys of Country Life."

Miss Annie Dorothy Palmer spent the week end at the home of her uncle, A. C. Huntley, in Bolton.

Those who attended the Congregational church Sunday enjoyed a very able and interesting address by Dr. Cary of Boston and a vocal solo by E. G. Miller. The funeral of Mrs. James Davis was held from the chapel of the Congrega-

THIN PEOPLE SHOULD TAKE PHOSPHATE

Nothing Like Plain Bitro-Phosphate to Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Force.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and sunken features, it is evident that there is something wrong with the bodies of thousands of men and women who keenly feel their excessive thinness.

Thinness and weakness are often due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by E. A. Drown & Co., a Barre and most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate should produce a welcome transformation in the appearance; the increase in weight frequently being astonishing.

CAUTION:—Although bitro-phosphate is unsurpassed for relieving nervousness, nervousness and general weakness, it should not be used by anyone who does not desire to put on flesh—Advt.

BETHEL

Dr. R. M. Chase, Dentist for 43 Years, Died Yesterday.

Dr. Rolla Miner Chase, aged 64 years, a lifelong dental practitioner in town, who had kept open an office in this village uninterruptedly since 1876, died at his home in this village yesterday morning after a few days' illness with Bright's disease. He was at his office as usual last week Monday, but the next morning did not feel well enough to walk over and his office was closed the rest of the week. His wife, who was at their cottage in Duxbury, Mass., when he became ill, was summoned and arrived Wednesday. He also is survived by his son, George Berry Chase, of Boston and by three grandchildren. His elder brother, Dr. M. R. Chase of Ludlow, has been in poor health for some years, and Dr. R. M. Chase visited him a week ago Sunday. Dr. Chase was one of the best known dentists in the state, had served as secretary and president of the Vermont Dental society and for several years was a member of the state board of dentistry, serving as its chairman and its secretary. He attended the most recent state dental meeting and nearly always took a prominent part in the proceedings at the annual meetings. Dr. Chase was a son of the late Moses and Rosina (Hill) Chase, and was born in South Royalton, Sept. 4, 1854. He was graduated from the Boston Dental college in 1876 and from the Baltimore Medical college in 1890, after the latter date practicing both professions but always making dentistry his specialty. He married in 1879, Susan Elizabeth Newell and they would have reached their 40th anniversary in a few days. Besides their son they had a daughter, Susie, whom they had mourned 18 years. Dr. Chase was deeply interested in public affairs and was elected town representative in 1900. He visited the legislature at its recent session. He was a public-spirited man, identifying himself in a whole-hearted way with every movement for a busier and better town. He was president of the town's first electric light and power company and vice-president of its shoe company. For many years he was president of the Board of Trade. He was a prominent member of White River lodge, No. 90, F. and A. M., and one of its past masters. He attended a Shriners' convention on the Pacific coast some years ago. He had traveled extensively in different parts of the United States. The funeral will be held tomorrow at 2 o'clock in the Universalist church with Masonic honors.

Mr. and Mrs. W. C. Clifford are in Indianapolis for the week.

Linus Edmunds, who was discharged recently at Camp Devens after a year's service in the army, is at home. He was a member of the 33d or "Yellow Cross" division and was in an artillery regiment. He sailed for France from Hoboken, N. J., after about six weeks' training at Camp Jackson, S. C. He was at Camp Hunt, Bordeaux, France, for some weeks. When the armistice was signed he was at Beaufort, France, near the firing line. In January he was moved to Luxembourg. He is looking and feeling well but had some hard experiences.

Leo Edmunds has gone to Burlington to live at the Queen City Park hotel which E. G. Hamilton, Mrs. Edmunds' father, is managing this season.

The Congregational church voted last Sunday to invite its minister, Rev. Frederick R. Dixon, to continue his pastorate another year.

Mrs. G. P. Fortier and Miss Mildred Fortier of Morrisville were here yesterday on their way to attend the annual summer meeting of the Green Mountain Association of Universalists at Barnard.

Mrs. B. H. Benedict went Sunday to Gayville to care for Mrs. Emma Leavitt.

Use More Milk

Would You Improve the Health of Yourself and Family?

Then put into practice these suggestions, which any physician or dietary expert will strongly endorse:

1. Cut down on the amount of eggs and meat you buy. Increase the quantity and variety of vegetables and cook them in Milk, serving the vegetables in their milk juices.
2. Substitute MILK for tea and coffee. Also drink half a glass to a glass of Milk on rising and retiring.

Then you will fully understand why authorities counsel you to "Use More Milk."

This Can't Happen with the VESTA BATTERY

STORAGE BATTERY

The battery condition shown here happens with every other battery but the Vesta. The illustration shows the wooden mats broken down—the plates touching. Short circuits result—the battery is killed.

But this can't happen with the Vesta—the plates are locked apart by Vesta Indestructible Isolators.

The construction and the advantages of these Isolators will be explained to you at any Vesta Service Station. This remarkable invention gives the Vesta doubled life and has placed the Vesta above all other storage batteries.

The materials used in most storage batteries are the same. Any manufacturer can buy the best antimony, lead oxides, tested rubber jars and hardwood battery boxes. Most manufacturers do.

But, materials alone do not make the battery.

The secret of a good battery lies inside the battery itself, in the inside, unseen construction.

The top quality materials used in Vesta Batteries can be duplicated. They are duplicated.

But, Vesta Experience and Vesta Patented Improvements cannot be duplicated.

Vesta Experience in the manufacture of automobile batteries extends over a period of 18 years.

FOUR GREAT VESTA TRIUMPHS

The three great improvements in battery making are: Indestructible Isolators, Impregnated Mats, Poro-Hard Plates, and the use of Titanium. All of these improvements are covered by U. S. basic patents and can be used by no other battery manufacturer but Vesta.

All makes of batteries recharged and repaired. Call in before buying your new battery and examine the Vesta.
